

PGDE (TESL) 2022

Educational Measurement and Assessment – Assignment 1

Complete the assignment and Handover on or before 15.09.2022

- Select any subject related to secondary level curriculum and select any unit of that subject. Identify learning outcomes/objectives/competencies or competency levels related to all the lessons of that unit. Then identify from them learning outcomes/objectives/competencies or competency levels that **can't be assessed** only by traditional written type tests but by performance based assessments.
- Identify and plan two performance based assessments that can be used for assessing those learning outcomes.
- In your plan you should have described

Learning outcomes/objectives to be assessed by the relevant performance based assessment

Work that should be completed by the students in the assigned work and accordingly relevant instructions

Criteria that should be used for assessing and the method used to assess the achievements related to each criteria and how to assign marks (using rubrics)

- Give a description about the usefulness of your proposed performance based assessment for giving feedback to achieve relevant learning outcomes/objectives instead of traditional written type tests.
